

## Executive Overview

I have built world class IT departments by implementing a team mentor program. Said teams: lowered employee turnover by increasing employee morale, job satisfaction, job security, etc. without having to increase payroll costs. I worked within million dollar budgets to billion dollar divisions. I have a strong technical background in VMware / Nutanix / Virtualization / UNIX / Linux.

*Over a decade of VMware*

*30 years UNIX (Aix, Linux, Solaris)*

VMware Certified Professional (VCP)

VMware Certified Instructor (VCI)

Nutanix Platform Professional (NPP)

Nutanix Certified Advanced Professional (NCAP)

Nutanix Authorized Instructor (NAI)

Managed teams with dozens of direct reports, thousands of servers and tens of thousands of desktops.

## Profile

I am a MIS Consultant, to maintain my relevance, I split my time (50/50) between being an instructor and consulting. Clients want to know that their instructor, consultant, mentor has "been there, done that" and brings both good and the bad real world experiences to their project. My consulting assignments have ranges from short-term "vacation relief" to full scale implementation to "CIO Overviews". Because of my clients needs I truly understand 24x7 requirements and mission critical needs.

## Overview

- Keen understanding of customer needs and how to create an optimal work environment to ensure maximum performance from employees.
- Train VMware, Nutanix, Solaris, Aix, Symix for and to their respective clients
- Successfully mitigated the risk of \$1 billion and \$3 billion each through innovative technical solutions and working with the clients to fulfill their needs.
- Innovative leader adept at building teams with the ability to think creatively and design profitable organizational changes.
- IS Manager, UNIX Server Group for the \$12 billion Investment division of Nationwide Insurance (Solaris, AIX, HPUX).
- Senior UNIX System Administrator for the \$67 billion AT&T Bell Laboratories, NEMOS Project (Solaris, UNIX).
- Lead a team that successfully supported over 2,000+ UNIX boxes and 15,000+ desktops.
- Board of Directors SAGE Certification, SAGE Policy Committee

## Experience

### Director, C.E.I.
